## Description

I'm a **Frontend** developer, I want to get experience in a good job, And of course **be useful** for the company that hires me. One of my best skills is the easy way I learn and the **responsibility** that I have when I work.

---

---

## Technologies

- ReactJS
  - JavaScript
  - CSS
  - Bootstrap
  - HTML
- 

---

## Abilities

- Teamwork
  - Responsibility
  - Want to be better than my old me
  - Active, Helpful and Careful
  - All time ready to work
- 

---

## Education

### College Otto Krause

March 2017 - December 2021, Paseo Colón

One of the most important colleges in Argentina. I studied there and I learned a little bit about informatic. When I investigate by myself, I love it and I discovered what I want to be, **Front-End Developer**.

---

---

## Experience

I did more than **20 projects** by myself, and study all day.

I want to get a job to be **useful** and work for the job that I love.
